

## **Testimony Submitted by Randy Flair Greencastle, PA**

Sir, I would love to come to this meeting in Greencastle about the new Storm Drain Tax, but like some many people, work for a living. I would think about using some of my leave, but you are not allowing us ask questions or make comments. This is another unfunded mandate, which is driving people out of Franklin county and out of the Pennsylvania. We built here, think we would retire here, but not with all these new taxes. We have work longer than we wanted too, to keep what we have. This storm drain tax is another example of a tax for service we will never use.
