

# Fluorescent Orange Requirements

**AT ALL  
TIMES**

## Groundhog Hunting

A hat made of solid fluorescent orange, visible 360 degrees. Worn at all times.

**AT ALL  
TIMES**

## All Small Game Seasons

A minimum of 250 square inches on head, chest and back, combined, visible 360 degrees.

**AT ALL  
TIMES**

## Deer, Bear or Elk Firearms Seasons

A minimum 250 square inches, on head, chest and back combined, visible 360 degrees. Worn at all times.

**AT ALL  
TIMES**

## October Muzzleloader Antlerless Deer Seasons

A minimum 250 square inches, on head, chest and back combined, visible 360 degrees. Worn at all times.

## Blinds

A minimum of 100 square inches of fluorescent orange material (orange alert band) must be displayed within 15 feet of a blind and visible 360 degrees during the firearms deer, bear and elk seasons. This is in addition to wearing orange while in the blind. See turkey section of Digest for specifics on blind use while turkey hunting.

## None Required

No fluorescent orange is required in archery deer, bear or elk seasons, or when hunting waterfowl, doves, turkeys, crows or furbearers\*. Hunters participating in the after-Christmas flintlock muzzleloader season also are not required to wear fluorescent orange (See Special Regulations Areas section of Digest for additional information.) Even when orange isn't required, the Game Commission highly recommends the use of orange. For example, a fluorescent orange hat is recommended for turkey hunters while moving. When fluorescent orange is required, the full amount of orange required for that season must be worn while moving from one hour prior to the start of legal hunting hours and for one hour past the closing of legal hunting hours.

**Note: \* Fluorescent orange is required when hunting coyotes during any big game season, if orange is required during that season, including from one hour before sunrise to one hour after sunset.**

**The online digest is available at <http://bit.ly/PGCDigest>.**

## Camouflage Fluorescent Orange

Camouflage fluorescent orange may satisfy orange regulations when 250 square inches of safety material is required if the orange content is at least 250 square inches. When a hat containing 100 square inches of orange is specified, the cap must be solid fluorescent orange.
